

**DOCUMENT E1** représentation individuelle du phénomène observé  
« Les glaçons fondent. »

Madame a mis une ~~bouteille~~ bouteille d'eau dans un bac rempli de glaçons pour la garder fraîche.

Que s'est-il passé?

The diagram consists of two stages connected by a horizontal arrow. In the first stage, a bottle is placed in a tray filled with several small squares representing ice cubes. Labels 'bouteille' and 'glaçon' point to the bottle and an ice cube respectively. In the second stage, the ice cubes have melted into a liquid pool that surrounds the bottle. Labels 'bouteille' and 'eau' point to the bottle and the liquid respectively.
